Surveys

Improvements to paper surveys

When reviewing an analysed response from a paper survey and accessing the web survey, you will now see an image of how the question appeared in the scanned paper survey. Green markings are displayed to indicate where the program has looked for checkboxes. This feature helps users determine if a document hasn't been scanned correctly.

2. Std-Radiobuttons - Vertical

☒ Nunc at euismod nulla, vitae rutrum turpis.

☐ Nam facilisis nec libero sit amet consectetur.

☐ Etiam finibus, magna ac ullamcorper venenatis, neque felis suscipit nunc, eleifend facilisis mi mi nec nunc.

Std-Radiobuttons - Vertical

☐ Nam facilisis nec libero sit amet consectetur.

☐ Etiam finibus, magna ac ullamcorper venenatis, neque felis suscipit nunc, eleifend facilisis mi mi nec nunc.

The interface for uploading scanned files now includes a tab for *Previously imported files*, which can be downloaded if needed, and it is also possible to analyse them again.

Possible to export individual survey links

When exporting respondents from a non-anonymous respondent survey using the *Export respondents* button under *Administration > Survey > Distribution > Respondents*, each respondent's personal survey link is now included. The link can also be displayed as a column (*Respondent's individual survey URL*) in the respondent list using the *Show/hide columns* button.
